

OB Hong Kong Exchange Instructor
September 16th to December 15th

The visiting instructor can expect to have roughly 8 days off per month. It means they have total 24 days off in these three months. OBHK will provide training for them to match our Levels Of Competence including local familiarization before they start to work. It is an opportunity for both parties to share experience and different culture.

The visiting instructors will be required to have previous successful Outward Bound experience and to be capable of actively instructing groups whilst in Hong Kong.

They should preferably have experience in:

- Land expeditions and navigation
- Sea Kayak/Open canoe group management
- Group supervision and facilitation
- Top-rope abseil and rock climbing site management
- Challenge Low rope course management

They must also have a **current first aid and lifesaving** qualification.

Applications should be submitted to Penny Jeffers at pjeffers@outwardbound.org by July 15th.
